

Download Harmful Invasive Species Legal Responses Environmental Law Institute

An invasive species is a species that is not native to a specific location (an introduced species), and that has a tendency to spread to a degree believed to cause damage to the environment, human economy or human health.. The criteria for invasive species has been controversial, as widely divergent perceptions exist among researchers as well as concerns with the subjectivity of the term ...The Invasive Species Specialist Group (ISSG) is a global network of scientific and policy experts on invasive species, organized under the auspices of the Species Survival Commission (SSC) of the International Union for Conservation of Nature (IUCN);the Invasive Species Specialist Group, ISSG aims to reduce threats to natural ecosystems and the native species they contain by increasing ...REVIEWS REVIEWS REVIEWS 307 Bioinvasions, bioterrorism, and biosecurity Laura A Meyerson^{1,3} and Jamie K Reaser^{2,3} Despite their high profile and potentially devastating consequences, bioterrorist acts are relatively unpredictable, rare, and thus far small-scale events. Oregon's new emergency medical services data system is connecting ambulance patient information to hospitals sooner than ever to more effectively treat injured people in Oregon.
