The Isuzu Elf (Japanese: ??????) is a medium duty truck produced by Isuzu since 1959. Outside Japan it is known as N series. The range was originally mainly available in Japan and other Asian countries. Australia was another important market for the Elf and N series – to the extent that it was manufactured there from the 1970s using many local components. Japan is a country which consistently turns out vehicles of all shapes and sizes and, what is more, the quality that is inherent in Japanese manufacturing means that these cars will always be in demand.
