

Download Research Report Guidelines

Research Reporting Guidelines and Initiatives: By Organization. This chart lists the major biomedical research reporting guidelines that provide advice for reporting research methods and findings. The 2018 Physical Activity Guidelines Advisory Committee submitted its Scientific Report to the Secretary of HHS in February 2018. The report summarizes the scientific evidence on physical activity and health, and the government used it to develop the second edition of the Physical Activity Guidelines for Americans. The Belmont Report was written by the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research. The Commission, created as a result of the National Research Act of 1974, was charged with identifying the basic ethical principles that should underlie the conduct of biomedical and behavioral research involving human subjects and developing guidelines to ...Evidence-based research provides the basis for sound clinical practice guidelines and recommendations. The database of guidelines available from the National Guideline Clearinghouse and the recommendations of the U.S. Preventive Services Task Force are especially useful.
